Choose delegates

Select who you would like to meet with and we will provide you with a schedule of face-to-face meetings.

Start networking

As well as your busy meetings schedule, naturally continue your conversations over coffee breaks, lunches, drinks receptions and a superb gala dinner.

Meet, connect and do business

Be part of **the healthcare buildings forum** and have unprecedented access to a host of key decision-makers involved in the design, build and management of both public and private health and social care facilities.

Over one-and-a-half days you'll benefit from a tailored schedule of one-to-one meetings with architects, contractors, NHS Trusts and private providers, mental health trusts, social care organisations, M&E contractors and estates & facilities managers.

The hbf is a professional yet informal event where relationships are extended through our social programme - yes, business can be friendly and enjoyable too!

Time to focus

The premise of **the hbf** is to create the ideal networking environment. Away from day-to-day distractions; the immersive nature of the event allows people to focus completely in the meeting/networking activities leading to better, more memorable and meaningful relationships.

Types of project areas

general hospitals & emergency centres, community hospitals, tertiary hospitals & private hospitals, health centres, walk-in centres & clinics, university/ laboratory/ research facilities, mental health hospitals, nursing & care homes, hospices, children's hospitals.

Our project delegates want to meet with suppliers of -

flooring, lighting, doors, windows, theatre lighting, operating room equipment, HVAC, medical gases, modular buildings, hygienic cladding, nursecall systems, taps & washroom equipment, shower & bathing systems, energy systems, entertainment systems / AV systems, fire alarm systems, legionella control, CCTV & security systems and many more....

A great opportunity to do business within a growing sector

- In addition to current funding, the NHS will receive an extra £10bn in real terms every year by 2020 to fund more operations and outpatient appointments, improve diagnostics and create better access to GP and hospital services.
- There will be improved access to GP services in the evenings and at the weekend, and seven-day access to hospital services by 2020. This will mean improvements will need to be made to the estate, in particularly primary care facilities.
- Scotland, Wales and Northern Ireland will receive extra cash for vital healthcare infrastructure projects.
- More than £500m will be spent building new state-of-the-art hospitals in Cambridge, Brighton, and Sandwell.

What the project delegates had to say...

"I have used many products straight away in projects because I am now more aware of them." **SynThesis**

"The attention to detail is second to none and the two days flow between efficient diary of meetings and informal networking opportunities." **ACA+ I Ltd**

"Stable certainly has a unique brand - with meticulous organisation, the quality sessions encourage collaborative conversations, wherein delegates can talk and (more importantly) listen - openly sharing knowledge and experience. A great place to make new contacts and strengthen existing relationships." **Summers Inman**

What the suppliers had to say...

"A fantastic opportunity to network and have meetings with architects and health trusts to establish or further a relationship by demonstrating products and services so as to enlist interest and book further appointments." **Yewdale**

"Very good well organised event giving a supplier the opportunity to meet a large number of customers in a short space of time. Where else could you have face to face meeting with 23 clients in one-and-a-half days!"
